

Social Responsibility Policy

Oriented in people

At VSPT, we take into account the positive and negative impact our decision making may have on our interest groups through our operations. The well-being of our people, responsible supply, respect for the environment, quality and safety of our products, satisfaction of our clients and consumers, as well as the care of our assets are the responsibility of everyone who makes up VSPT Wine Group, with leadership from an honest and transparent Corporate Government.

For this reason, within the framework of our logic of compliance and transparency, we have committed to the following in order to contribute to a better society:

Corporate Governance

Making decisions in an ethical, honest and transparent way, based on our values and on the development and well-being of our interest groups.

Our People

Promoting their comprehensive development, well-being and quality of life. People are at the center of the business and make up our real competitive advantage.

Responsible Supply

Ensure collaborative, innovative and supportive work with our suppliers.

Development of our communities

Contribute to its well-being and support its sustainable development.

Satisfaction of our clients and consumers

Gain the preference of our consumers and clients.

Protection of the environment

Ensure and promote protection of the natural ecosystems surrounding our facilities.
